Zach Fettters

Web developer, designer.

About Me

Hobbyist **web developer** and **designer**. Skilled in **web design**, front/back-end development, **graphic design**. I have an eye for details and am a stickler for standardization, **accessibility**, and modularity.

Experience

Data Entry Operator

STARTED NOV. 2021 · [REDACTED]

Responsible for processing healthcare claims for our clients. I was also tasked with sorting and scanning our claims sent in via mail.

Recommendations

“Zach is a self-starter and his contributions to our team were invaluable. Early in the design phase of one of our most recent projects, Zach was quick to present Figma mock-ups and front-end prototypes to the team. Zach provided helpful feedback in team meetings and was always willing to take on new responsibilities.” — [REDACTED]

“Zachary is extremely easy to train and isn't afraid to jump in and help clients with their technology problems.” — [REDACTED]
